

## DECIDE TO USE WATER OF GRAND

Vinita Councilmen End Long Controversy by Decisive Vote

## AN ENORMOUS PLANT

Friscio Assures Its Patronage Before Issue Is Finally Settled Here

Special to The World.  
VINITA, April 7.—The water question was definitely settled Tuesday night by the city fathers when they voted to pipe water from Grand river to this city for domestic and industrial purposes. The engineers have been directed to proceed with plans and work out all details in connection with the proposed water system, and advertise for bids for the building of a 12-inch pipe line. Bonds at par with a five per cent interest have already been sold for a \$150,000 bond issue up to \$150,000. The city has been estimated to cost a little over \$200,000, a preliminary survey and estimate having been made a short time ago by a Kansas City engineering firm.

The final issue in the water problem has been hanging fire for several weeks awaiting definite assurance from the Friscio railroad that it would use this water, and at Tuesday night's meeting a letter was read from the railroad giving this assurance.

A bond issue of \$150,000 was voted by Vinita citizens a year ago, and at that time it was the purpose to impound the water of Little Cabin, two miles north-east of the city, with two dams, and install a filtration plant. This plan was discarded, however, and the new plan calls for piping the water from Grand river near Ketchum, 12 miles southeast of here, pumping it to the top of the hill, where a settling basin will be built, and then the water will flow by gravity to the city through a 12-inch pipe.

One hundred or more business men attended the council meeting and evinced their approval of the action of the councilmen. Business men generally see a bright future ahead for this city with an adequate water supply for both domestic and industrial purposes, because of the coal mines to be developed to the south, and the big power plant to go in on Grand river with an output of \$25,000,000, near Ketchum. The artesian water used at present is not desirable for industrial purposes although it is in heavy advertisement for the city on account of its mineral qualities.

## PHONE COMPANY ON CARPET

Plead Guilty to Negligence but Promise to Do Better.

Special to The World.  
OKEMAH, April 7.—Corporation Commissioner Campbell Russell was in Okemah Wednesday and conducted the hearing of the case of the citizens of Okemah versus the Bell Telephone company. Practically every business man and many residents were present and eager to testify as to the poor service rendered by the telephone company to its patrons here. The lack of proper service was admitted by officers of the company at the hearing.

According to a contract entered into two years ago between the chamber of commerce and the city council and the company, the entire local system was to be replaced with modern and adequate facilities to handle the business of the company. Nothing had been done in any way on the company's part to live up to its contract with the city and the matter was taken to the corporation commission. The agents and officers of the company represented at the hearing that equipment had been ordered and that the work would begin at once on the improvements. It was also brought out that no orders had been made for the material until after the case had been taken up with the commission. The result of the hearing was that the company is ordered to have the improvements completed and adequate facilities for service installed and working by September 1 or suffer the penalty of having their service rates materially cut in Okemah.

## TO MAKE WAR ON THE CROW

Farmer Accuses Predatory Birds of Eating 60 Acres of Kafir.

Special to The World.  
FONCA CITY, April 7.—A determined campaign for the extermination of crows is again in progress in the western Osage, where they have become such a menace that in one instance, related by farmers of that community, the birds ate up an entire 60 acres of kafir corn. The farmers declare that with the birds so plentiful it is impossible for them to attempt to grow either kafir or corn.

As a result the county is paying 1 cent a head bounty for crows and the business men of Fairfax have united in paying additional bounties. Prescriptions outlining how to poison the crows, are being published and distributed.

## State Briefs

**Bitten by Rabid Mule.**  
EUFALA.—James M. Price, a well-known farmer living about 15 miles northwest of Eufala, is reported to be in a critical condition at the Oklahoma Baptist hospital Muskogee as the result of having been bitten about the right ankle Friday by a mule that physicians fear was suffering from hydrophobia.

**Meeker Votes Levy Increase.**  
MEEKER.—At the annual meeting here the extra 10-mill tax levy was voted unanimously. It was decided to build another bungalow to accommodate the increased enrollment in the school.

**Townships Would Secede.**  
POTEAU.—Culminating a dispute between Bokoshe, northwestern LeFlore county, and Poteau, county seat, over the routing of the Postal highway through the county, citizens of the former town have announced that steps have been taken to annex the three townships of Haskell of Bokoshe to Haskell county. Bokoshe is a coal mining town, and fourth largest place in the county, having more than 1,000 population.

**Wynona Gets Water Again.**  
WYNONA.—After more than a month of drought water was again turned into the city mains Thursday. Wynona's water supply was cut off on account of a dispute of the legality of bonds voted last January, the councilmen being unwilling to be responsible for the debt. A decision of the district court at Pawnee definitely established the legality of the \$300,000 bond issue.

**Vote Closest in City's History.**  
MADILL.—J. L. Hemphill won over J. W. Vandervort in the election for city commissioner of Madill. The vote was light but was one of the closest registered in the history of the city, being 236 to 231.

**Two Holes From One Bullet.**  
MALESTER.—When Frank Peabody of Wilburton was brought here Wednesday for safe keeping he was found to have two bullet holes in his back, although only one shot had been fired. The shot was fired by officers at a retreat in a car when the driver refused to stop at the order of the sheriff, who had a warrant to serve. A physician suggests that the bullet struck the back of the car and split before it hit the victim.

**Atoka Rail Kick Settled.**  
ATOKA.—Complaints of Atoka citizens against the Katy railway for insufficient service has been dismissed, the railway company agreeing to stop two of its passenger trains at Atoka to receive and discharge passengers for Atoka. The complaint was filed when the Katy removed two of its local trains.

**Pimples Keep Young Men Down!**

They Make Women, Too, a Puzzle! How S. S. S. Stops Skin Eruptions Positively.

Pimples and skin eruptions have a price—you pay for every pustule, black-head and pimple on your face. Pimples produce prejudice and prevent prosperity. Your hair may be gold, but who wants to kiss eruptions? Simply men don't look like the owners of anything. Pimples women, too, are puzzled, with no prospects and no positive way out. Physics and purgatives will fail. What you need is a scientific blood-cleaner. S. S. S. is one of the most powerful destroyers of blood impurities. You can prove this in a short time. S. S. S. has been passed on by a jury of millions of people just like yourself. It is considered one of the most powerful vegetable blood-purifiers and flesh-builders in existence. That's why you hear of so many underweight people putting on flesh in a hurry, why you hear of so many rheumatics being freed from their scourge, with S. S. S. Start today with S. S. S. and see your face clear and your skin get ruddier, your flesh firmer. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

The farmers declare that with the birds so plentiful it is impossible for them to attempt to grow either kafir or corn.

## Gave Special Train for Corpse, but Subject Not Ready for Undertaker

Special to The World.  
MALESTER, April 7.—A dead man lying beside the track one mile east was the report made by passengers on the westbound Rock Island when it pulled into the station here Tuesday afternoon. Patrolman Bill Williams called an undertaker, and impressing a party, was furnished a special train to bring in the body.

When the train arrived at the designated spot, however, the dead man was sitting up, lacing his shoes, preparatory to pursuing his migrations. He had stopped only for an afternoon nap. The patrolman says he has demonstrated that the railroad will furnish him a special train when he calls for it.

## SEEKS SHELTER FOR FAMILY

Wolf Mother and Litter Take Possession of Deserter's House.

Special to The World.  
APTON, April 7.—Owing to the extremely wet weather of the past two weeks a she wolf is supposed to have conveyed from her den to a deserted house on the farm of Ray Dawson her litter of nine little wolves. When Mr. Dawson entered the building, which had been used for storing hay, he saw two little pups which he thought were dogs, and then discovered the other seven in another part of the house.

Later he saw the mother wolf enter the building and realized that the puppies were wolves. He set a trap for the mother and caught and killed her. Two of the pups died, but the others were given to neighbors. The wolf has been a resident on the farm for years, but heretofore had always managed to escape the hunters.

## Pin Faith on a Madstone

But to Be Safe Woman Is Receiving Hydrophobia Treatment.

Special to The World.  
TALLAHUE, April 7.—Mrs. J. W. Bowen and several children who were bitten by a small dog some days ago, are receiving treatment for hydrophobia. The head of the dog was sent away for examination and the report of the experts was to the effect that the animal was afflicted with the dread malady.

Besides other treatment Mrs. Bowen was treated with a madstone owned by a citizen of this place. It is said that the stone adhered to the wound inflicted by the dog and numbers of people hereabouts are of the belief that the stone alone will have the effect of curing the patient.

## Vote Not Close This Time

Recalls Man Chosen by Majority of 4 and Lost by Contest.

## Victim of Phillips Explosion Dies in the Hospital

Special to The World.  
BARTLESVILLE, April 7.—Steve Laynes, foreman of the Osage gasoline plant at the Phillips Petroleum company, who received severe burns when the gas tanks at the plant exploded early Wednesday night, died Thursday morning as a result of his injuries. The victim had been taken to the county hospital, where it was found that his wounds were of such a nature that death was only a matter of a few hours.

Haynes was shot two months ago here Wednesday, J. C. Maltby won over C. E. Eskew by a majority of 153 votes. Eskew carried only one ward.

This election was quite a contrast to the one held a year ago in which Hugh Gilliland beat H. E. Buckles by the small margin of four votes. However, some of the votes cast for Gilliland were found to be illegal and Buckles finally got the office after the case had been fought in the courts.

If you will make use of a World Want Ad, it will summon first aid in office, kitchen and nursery.

## Art Needlework Department
